TSSR

New York State's **Traffic Safety Statistical Repository** is a dynamic, interactive system where you can view crash and ticket data online (www.itsmr.org/tssr).

Developed by the Institute for Traffic Safety Management and Research (ITSMR) with funding provided by the Governor's Traffic Safety Committee (GTSC), the TSSR allows you to view reports about crashes that occurred and traffic tickets that were issued to motorists on New York's roadways starting in 2009.

You can customize reports by checking boxes, for example, to display data for one or multiple years and one or multiple counties. You can also save, print and email reports.

TSSR Project Staff at ITSMR

“This database enables both the public and traffic safety professionals to quickly find statistical data about crashes and traffic tickets.”

- Terri Egan, GTSC Acting Chair and DMV Executive Deputy Commissioner

Ticket Reports

Traffic ticket reports in the TSSR are generated at the statewide, regional, county and municipality levels, showing the overall numbers of tickets issued and separate totals for speeding, cell phone, texting, safety restraints, and impaired driving citations.

For selected types of tickets you can view a variety of details, including:

- Enforcement agencies that issued the tickets
- Driver age and gender
- Region
- Month, day of week and time of day
- Tickets issued for companion violations
- Driver license jurisdiction
- Adjudication status and conviction rates

Crash Reports

The TSSR generates reports on crashes statewide and at the regional, county and municipality levels. Reports are available on total crashes, motorcycle, pedestrian, bicycle and large truck crashes. Separate reports show data on alcohol-related, drug-related, impaired and speed-related crashes, as well as crashes involving young drivers and older drivers.

Tables and charts provide a wide variety of information, including:

- Number of persons killed and injured, by their role in the crash (driver, passenger, pedestrian, bicyclist) and by age
- Driver age and gender
- Safety equipment used (restraints and helmets)
- Month, day of week and time of day of the crash
- Crash contributing factors

Data Sources

Crash Data*

The crash data in the TSSR are obtained from the Accident Information System (AIS) maintained by the Department of Motor Vehicles (DMV).

Ticket Data*

The TSSR’s traffic ticket data reflect information captured by three systems:

- Traffic Safety Law Enforcement and Disposition (TSLED), maintained by the DMV
- Traffic Violations Bureau (TVB), maintained by the DMV
- A third system that captures data about impaired driving tickets issued in New York City, maintained by the NYPD.

* Includes preliminary 2017 data

NYS Crash Summary*

Crashes	2015		2016		2017 Preliminary*	
	Total	%	Total	%	Total	%
Total	294,556	100.00%	301,908	100.00%	159,755	100.00%
Fatal	1,045	0.35%	969	0.32%	462	0.29%
Personal Injury	113,396	38.50%	123,057	40.76%	67,888	42.50%
Property Damage	180,115	61.15%	177,882	58.92%	91,405	57.22%
